

# Q-7

*The Q-7, a high volume, heavy weight machine features a circular cutting system and can fully process 15' wide goods.*

### **Accu-Cut Advantages**

- Circular cutter
- Beltless load cradle
- Variable speed control
- Fully process 15' goods

- ◆ One person can unroll, inspect, measure, cut, reverse roll and wrap all your carpet and vinyl simply and accurately.
- ◆ The Q-7's steel frame incorporates laser cut precision and is welded, not bolted, providing you with the strongest and most durable machine frame available.
- ◆ PLC control includes multiple preset cut storage and product settings. Foot and inch counter automatically slows down the machine then stops precisely at the programmed measurement.
- ◆ Automatic variable speed control allows the user to choose a comfortable speed or slow down the machine for inspection.
- ◆ The Q-7 can easily be moved on its industrial strength casters. Engage the lifting brakes to raise the machine off the floor and keep it stationary.
- ◆ Wrap around foot cable control provides the operator with a way to engage the rollers from the front or side of the machine. Makes wrapping and taping rolls simple.

# Q-7

Wrap around foot cable control, spring loaded roll up arm, speed control, auto run feature and open ended cradles provide for ease of use.

**All are standard features on the Q-7!**

**ONE PERSON OPERATION**

**CIRCULAR CUTTER**

Self sharpening circular blade rotates as it moves down the cutting track. Hold down guard covers blade and keeps material tight while cutting. **Longer blade life reduces blade changes and increases efficiency!**

Directional switches control the rollers - the yellow push button activates them. Speed selection dial, easy to use expanded PLC interface and emergency stop button.

**An auto-run feature makes operating the machine even simpler!**

**USER FRIENDLY CONTROLS**

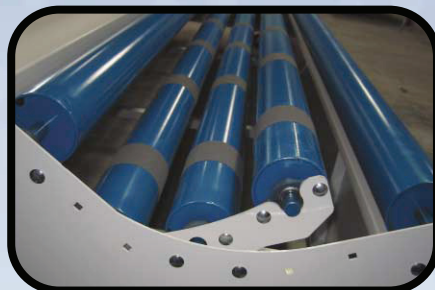

**CUT PIECE REMOVAL**

All Accu-Cut machines are equipped with a cut piece dumping mechanism to off load your cut length. **Make multiple cuts off of one roll without using your forklift to remove the cut length!**

The Q-7's open ended, beltless load cradle holds even the largest rolls. The cradle features a roll improver that adjusts the position of the roll.

**This ensures you get a square cut and that the material rolls up straight every time!**

**ADJUSTABLE LOAD CRADLE**

**REVERSE ROLL**

Rolling carpet or vinyl pile/pattern side out is a simple one person, one step process. **Keep your remnants clean and easily wrap them for display!**

Includes a foot & inch counter, preset cut storage system, security keypad, cut counter, change blade reminder, multiple product settings and more.

**The machine will automatically stop precisely at the programmed length!**

**PLC CONTROL**

**INSPECT MATERIAL**

Material can easily be inspected as it travels across the tabletop. **Inspect the carpet and vinyl before it goes out the door!**

## SPECIFICATIONS:

**Size:** 17'8 long x 6'8" wide x 3'3" high

**Power:** 220 volts - single phase / 60 hertz / 15 amps

**Blades:** 5 1/2" circular, beveled edge

**Limited Warranty:** 1 year parts, 3 years on frame

**Meets all UL and CSA safety standards.**
