

J-5

A full featured machine that will improve the bottom line of any company by saving time and money.

Accu-Cut Advantages

- Beltless load cradle
- High speed cutter
- Variable speed control
- Auto stop foot & inch counter

- ◆ One person can unroll, inspect, measure, cut, reverse roll and wrap all your carpet and vinyl simply and accurately.
- ◆ The j-5's steel frame incorporates laser cut precision and is welded, not bolted, providing you with the strongest and most durable machine frame available.
- ◆ PLC control includes multiple preset cut storage and product settings. Foot and inch counter automatically slows down the machine then stops precisely at the programmed measurement.
- ◆ Automatic variable speed control allows the user to choose a comfortable speed or slow down the machine for inspection.
- ◆ The j-5 can easily be moved on its industrial strength casters. Engage the lifting brakes to raise the machine off the floor and keep it stationary.
- ◆ Wrap around foot cable control provides the operator with a way to engage the rollers from the front or side of the machine. Makes wrapping and taping rolls simple.

J-5

Wrap around foot cable control, spring loaded roll up arm, speed control, auto run feature and open ended cradles provide for ease of use.

All are standard features on the j-5!

ONE PERSON OPERATION

FAST, STRAIGHT CUTS

Patented, two direction, chain driven cutter uses standard blades and applies pressure to the material being cut.

Get a straight, clean cut every time!

Directional switches control the rollers and cutter - the yellow push buttons activate them. Speed selection dial, easy to use PLC interface and emergency stop button.

An auto-run feature makes operating the machine even simpler!

USER FRIENDLY CONTROLS

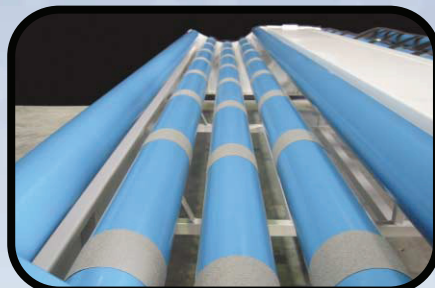

CUT PIECE REMOVAL

All Accu-Cut machines are equipped with a cut piece dumping mechanism to off load your cut length.

Make multiple cuts off of one roll without using your forklift to remove the cut length!

The j-5's open ended, beltless load cradle holds even the largest rolls. The steel rollers center the material in the cradle.

This helps to ensure the material rolls up straight every time!

BELTLESS LOAD CRADLE

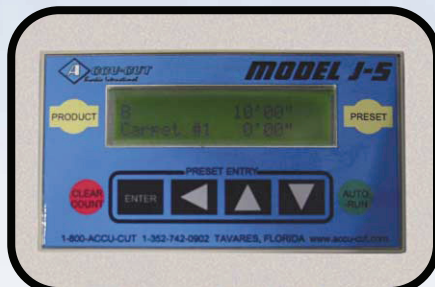

REVERSE ROLL

Rolling carpet or vinyl pile/pattern side out is a simple one person, one step process.

Keep your remnants clean and easily wrap them for display!

Advanced control system includes a foot & inch counter, preset cut storage system, security keypad, multiple product settings and more.

The machine will automatically stop precisely at the programmed length!

PLC CONTROL

INSPECT MATERIAL

Material can easily be inspected as it travels across the tabletop.

Inspect the carpet and vinyl before it goes out the door!

SPECIFICATIONS:

Size: 15'8" long x 6'8" wide x 3'3" high

Power: 220 volts - single phase / 60 hertz / 15 amps

Blades: Standard, slotted double edge carpet blade

Limited Warranty: 1 year parts, 3 years on frame

Meets all UL and CSA safety standards.
